# “...hands along the way”

## Dear Friend,

Thanks for the opportunity to introduce **MOHDC**—Modern Organization & Human Development Center. In short, we offer a unique brand of consulting and training services to business and community organizations. Our motto “hands along the way” embodies our commitment to helping client organizations define and achieve optimum success through the pursuit of best practices. MOHDC aims to be the number one referenced and desired outfit among small/medium size institutions and governments seeking external consulting & training services. That’s why we are passionate about our clients’ business and the relationship we share with them. Our core values are integrity, imagination and insight; and we pride ourselves in the emotional intelligence, and continuous learning that’s reflected in what we do. Clients regularly say high caliber ethical and professional standards flavor our open respectful interaction. At MOHDC we cherish multicultural and multiethnic appreciation. Let us give your organization a “hand along the way.”

Sincerely,  
*Raymond S. Edwards*  
 President/CEO

## SAMPLE OF PROFESSIONAL DEVELOPMENT WORKSHOPS

Our seminars/workshops are always participant friendly, built on studied curricular design, and reflect the best ways adults learn. They are specifically crafted for easy practical work related transfer and typically employ episodes of psycho-drama, gripping group simulations and tons of creative laughter.

### Managerial Competence

This workshop highlights cutting edge competencies necessary for today’s organization leaders. Participants develop the adroit art of improving people quality skills without sacrificing task accomplishment drives.

### Group Dynamics for Workplace Productivity

Multi-variant people and personalities within organizations make productive teamwork a complex challenge. This professional training session addresses these challenges with positive results.

### Adaptive Leadership

A symposium on the fuels that drive change directed leadership. Focus is on vision building/implementation as well as the psychological awareness necessary for moving an organization from custom and comfort positions to dynamic innovative experiences.
